Supervisors Plan Lease-Purchase Despite Protests

That the Nevada County Board of Supervisors intend to proceed as soon as possible on the construction of the court house annex and the county building in Truckee under a lease-purchase plan, as originally contemplated, was indicated this week with the publication of a message to the people of the county, detailing reasons for this method of financing as compared to a general obligation bond issue.

The message was primarily an answer to questions brought up in documents circulated by the Nevada County Farm Bureau and the Nevada County Taxpayers Association protesting the lease-purchase plan.

Full text of the message will be found on another page of the Sierra Sun today.

It is pointed out that the buildings are vitally needed and that no opposition to this point has been raised, the method of financing being the only issue. The board denies that lease-purchase will require a higher interest rate, citing recent instances where bond issues have cost as much as 5 per cent and over and showing where interest rates start prior to the construction which might be delayed, and costs of building might soar between the time the bonds are sold and the contract let. Under lease-purchase, the cost is known in advance and contracts let before interest rates start.

In answer to the question: Under general obligation bonds, construction of each unit can proceed as is most beneficial to the county, the supervisors said "here is simply the fact that the complete program has been designed by the architect to be constructed as a package project rather than individual piece-meal projects. This is done to insure competitive construction bids. Liken this program to your own home. Would you prefer to let the complete contract for the construction of your home—or, would you prefer to let individual contracts with different contractors for the foundation, one for the walls, one for the roof, one for the interior, etc.?"

The board next week is expected to take final action on the building program so that it can be started as soon as conditions permit.

The Truckee building is estimated to cost $143,000 of the total $1,263,000 expenditure.

Kenneth L. McLaughton, 30, Sacramento resident but employed as a dishwasher at Tahoe Inn, was killed about 2 a. m. Monday when a car in which he was riding overturned on Dollar Hill at Lake Tahoe.

Zervas was accused of leaving the scene and proceeding on the club where he was apprehended. He denied knowledge of the crash.

Another passenger in the car, Irvin F. Walker, 52, of Tahoe City was treated at the Tahoe Forest Hospital for injuries.

State Patrolman Wayne Hopkins who made the investigation, said Zervas was not cooperative in providing information. The car apparently hit a soft shoulder and overturned.

The girl appeared in juvenile court last week and Public Defender Fred Tuttle, III, was appointed as her representative.

Sprague was shot, according to sheriff's deputies, when he came home intoxicated and beat and choked his wife, Myrtle, 37, when she refused him money. The fight was the culmination of a 12-year quarrel, officers said, between the victim and his wife.

Sprague was killed by a single shot from a .22 calibre rifle which penetrated his right side. He died almost instantly.

Last rites were held for Sprague at Colfax and the body was shipped to Bakersfield for burial.

December 29 has been set as the date for California to become the largest state in population in the United States and a "red carpet" treatment will be given the first permanent family to break the tie with New York, Higgins said.

Assisting the chamber in extending greetings will be Congressman Harold T. (Bizz) Johnson, State Senator Ronald Cameron and Assemblyman Paul J. Lunardi, who have asked to participate, Higgins said.

The local committee, comprising Higgins, Reg Smart, Daven Morey, Ivan Tofft and Jack Marquette, is arranging a program for the occasion and will provide a royal reception with gifts, a banquet and other features.

Governor Edmund G. Brown has designated December 29, 30 and 31 and January 1 as California First — the time when this state will exceed all others in population.

TRAFFIC IS DELAYED AS PIG TRUCK SKIDS

The storm which brought two inches of wet, heavy snow to Truckee Monday, and which left nearly 10 inches on Donner Summit to brighten the spirits of winter sports enthusiasts, created a bit of a traffic problem.

A big truck loaded with pigs jacknifed on Donner grade at 10:30 Monday night and narrowly missed going over the bank near Big Shot. Fortunately Thornton's big tow truck was on the job and quickly hooked onto the load holding it from going over. Traffic was tied up for three hours as a result.

KINGS BEACH—The revival of the Lake Tahoe-Sierra Chamber of Commerce "Snow Flake Ball" was moved ahead to December 15, and the location of the event was scheduled in the Olympic Village Hotel. According to chamber president, Don Beck ,the change was made to eliminate a conflicting date between "the ball" and a special two night appearance of the "Limelighters" in the North Sierra Lake Tahoe area.

Beck said that the "Snow Flake Ball" would also serve as the gala occasion, to generate local enthusiasm in the area's newly formed convention, advertising and promotion program. He added that the program for the affair had been expanded. William Newsom, operator of California's Squaw Valley State Park facilities, will bring in special entertainment during dance breaks and according to Beck, the chamber is negotiating for a top name master of ceremonies from Frank Sinatra's Cal-Neva Lodge. Beck is flying to Hollywood this week to meet with Stanley Keller, Sinatra's attorney.

Plans for holding the "Miss Snow Flake" Beauty Queen contest and dance music by the Playboys are unchanged, except for the date, December 15.

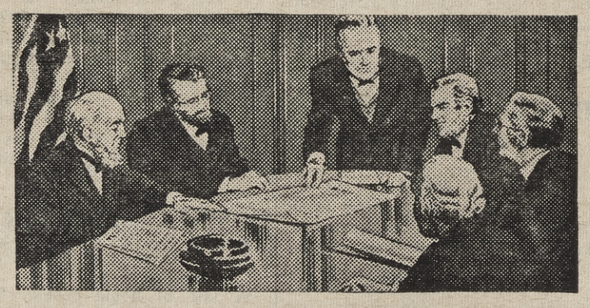
It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . . the same year that



IN CALIFORNIA, the San Francisco Stock Exchange Board was founded, and opened to frenzied trading in the Virginia City mining stocks. Whether stocks went up or down, California's financiers knew that, for sparkling refreshment, beer was a good investment.

For then as now, beer was the traditional beverage of moderation. But beer means more than enjoyment to our state. The Brewing Industry pays more than 12 million dollars in taxes to the State of California each year, money that helps support our hospitals, schools and parks.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

FLOWER DRUM SONG IS HARRAH FEATURE

SOO AND FONTANA

Rodgers and Hammerstein's popular "Flower Drum Song" starring Jack Soo and Arlene Fontana will open at Harrah's Tahoe South Shore Room on November 27, for a month's engagement.

The Broadway musical hit, also featuring Romi Yamada and Jon Lee, is the first of its kind to be staged at Harrah's and will be presented twice nightly with Leighton Noble's Orchestra providing musical accompaniment.

Soo, who plays the part of the gambler night-club owner Sammy Fong, has come to be an exciting personality of the stage. He also plays the lead in the movie of "Flower Drum Song."

Together with Soo, Arlene Fontana, Miss Yamanda, Lee and the cast put forth the sparkling Rodgers and Hammerstein selections of "Grant Avenue," "A Hundred Million Miracles," "You Are Beautiful," "I Enjoy Being A Girl," "Chop Suey," "Don't Marry Me," and "Love Look Away."

The Harrah's Tahoe Bob Vincent presentation will continue through December 26. "Flower Drum Song" is the story of a "picture bride" brought to America by a San Francisco night-club owner. Later regretting his action, he tries to fob her off on a young friend. Complications set in, however, when the intended groom proposes to another. The fact that the "other" is the girl friend of the night-club owner makes the situation even worse. But all is worked out to the happy conclusion of a traditional Chinese wedding.

The San Francisco mint started operations in 1854.

FORECAST IS MADE OF SIERRA EARNING

SAN FRANCISCO — President Fred Fletcher forecaster for San Francisco security analysts that the Sierra Pacific will earn about $1.15 a share this fiscal year. That is without benefit of a proposed rate increase.

The Reno headquartered company executive predicted great development for the Reno-Sparks area and the company's own industrial park there as the migration wave hits the Pacific coast and rolls back.

President William Howard Taft was the first American chief executive to use a horseless carriage.

MEN ARE NEEDED IN EXPANSION OF FAA

As a part of their continued expansion program, the federal aviation agency's western region, which includes the states of Washington, Oregon, California, Idaho, Utah, Nevada, Arizona, Colorado and Wyoming, commissioned 150 new electronic facilities in fiscal year 1962. These new facilities will take their places within the already vast existing network of over 347,000 miles of criss-crossing airways.

With the large number of new facilities and additional equipment constantly being installed, the western region anticipates hiring approximately 600 electronic technicians in the coming year. These technicians will be responsible for the highly precise maintenance of this airway system required by the agency and the flying public. In addition to these, civil and electronic engineers will be needed for additional installation and maintenance and modification projects associated with the agency's continued expansion program.

NO MAJOR CHANGES IN FISHING RULES

The California Fish and Game Commission made its determinations on the 1963 angling regulations in San Francisco Friday, November 9. The commission indicated that there will be no major changes in the current angling regulations next year.

At a public meeting on December 7 in Los Angeles, the commission will hear recommendations for changes in these determinations and will formally adopt the 1963 regulations.

Chief proposals by the commission for adoption on December 7 were a general summer trout season opening May 4 and running through October 31; and an adjustment in the salmon limit providing for a three fish limit of which two must be at least 22 inches in length and one salmon must not be less than 20 inches long.

FEWER DEER KILLED THAN IN LAST YEAR

The gap between the number of deer killed during the 1962 season as compared to last year broadened as the season drew to a close.

The California fish and game commission reports that in Nevada County there were 837 deer validated this year compared to 993 in 1961, a difference of 161.

Placer County showed a decrease of 37, with 887 validated in 1961, compared to 850 this year.

Modoc County showed a drop of approximately 1,000 as did Siskiyou, Humboldt and Tehama Counties.

Over the state, the grand total of deer killed in 1962 was 53,361, compared to 66,566 in 1961 or a decrease of 13,205 deer. The average kill from 1957 to 1961 is 64,812.

GETS PROMOTION

A MESSAGE TO THE PEOPLE OF NEVADA COUNTY

THIS NEWS RELEASE is being made to the People of this County with the hope it will clarify the Building Program issue and to appraise the People of the true facts of the proposed Lease-Purchase Program your Board of Supervisors have been studying.

FIRST: It must be agreed to that our Jail facilities are such that a new County Building and Sheriff's Sub-station is necessary. A review of the last five (5) Grand Jury reports, as well as the Report from the Department of Correction, will prove beyond a reasonable doubt the necessity for the Building Program. We know of no opposition by any group to this statement.

SECOND: The Board of Supervisors have carefully reviewed the two methods of financing that they can legally use to build the proposed buildings. These two methods are a General Obligation Bond Issue (which places a lien on all the Real Property of the County), and the newer method of Lease-Purchase. Knowing that the public is well aware of a General Obligation Bond Issue, we will discuss the alternate Lease-Purchase method — and attempt to show you why we feel it will be the most expeditious mthod under the circumstances.

Recently, Petitions were circulated by the Nevada County Farm Bureau and the Nevada County Taxpayers Association, protesting the Lease-Purchase Program. These Petitions had Six Points of Protest which we will specifically answer to the best of our ability.

A. AN ADMITTED HIGHER INTEREST RATE.

In rebuttal to this statement, may we draw some comparisons for you. Recently School Bonds were sold in this County at the following Interest Rates:

PLEASANT RIDGE UNION SCHOOL DISTRICT
Bonds 1 to 9 .... 5% interest
Bonds 10 to 12 ..... 4% interest
(Issue of April 15, 1962)

NEVADA UNION HIGH SCHOOL BONDS
Bonds 1 through 930 ..... 5% interest
Bonds 931 to 1020 ..... 4½% interest
Bonds 1020 to 1300 ..... 4¼ interest
Bonds 1301 to 1500 ..... 2½% interest
(Issue of July 15, 1959)

In Roseville, California, in October, 1962, a $500,000.00 General Obligation Revenue Bond Issue was sold for an interest rate of 5.65 per cent (MFOA). The County has a guarantee from the financing company that that company will purchase the Bonds for the construction of the proposed Buildings at a maximum interest rate of 4.95 per cent—or, we also may take our chances on the open market for either a higher or lower interest rate — depending upon the market at the time we sell.

One more point worthy of consideration is this: If we have General Obligation Bonds, we must sell them at the time the Bids are received regardless of the market . . . whereas, the Revenue Bonds under the Lease - Purchase Program, can be held for sale at an advantageous time to the county.

B. INTEREST ON FULL AMOUNT BORROWED FROM BEGINNING OF FINANCE CONTRACT — WHEREAS GENERAL OBLIGATION BONDS DRAW INTEREST ONLY FROM DATE SOLD.

This is a true statement. However, it is incomplete. We will pay interest from the date of the Contract under Lease - Purchase — however, construction will also start at the date of the Contract. The Construction Bids and the Contractors Costs will all be well known to us before we commit the County.

Under General Obligation Bonds, there is a "time lag" during which we must sell the Bonds. Construction, of course, cannot be started until the Bonds are sold. Furthermore, under the General Obligation Bonds Issue, we will not know the exact cost of the Building until atfer the Bonds have been sold—and we then call for bids. Under Lease-Purchase Program, the Bids are in before the Bonds are sold. We know exactly what we are going to spend and what it is for. It is apparent therefore, that under a General Obligation Bond Issue, we must ask the People for more money than the Architect's Estimate to insure that we will have sufficient money to fulfill the Contract when the construction Bids are in — which is usually 60 to 90 days after the Bonds have been sold.

C. UNDER GENERAL OBLIGATION BONDS, CONSTRUCTION OF EACH UNIT CAN PROCEED AS IS MOST BENEFICIAL TO THE COUNTY.

The answer here is simply the fact that the complete program has been designed by the Architect to be constructed as a "package" project rather than individual "piece meal" projects. This is done to insure the competitive construction Bids. Liken this program to your own home. Would you prefer to let a complete Contract for the construction of your home —or, would you prefer to let individual Contracts with different Contractors for the foundation, one for the Walls, one for the Roof, one for the Interior, etc.?

D. THE PEOPLE RETAIN THEIR INHERENT RIGHT TO EXPRESS OPINION AT THE POLLS THROUGH A BOND ELECTION.

We feel, being your duly elected representatives on this Board, that we are speaking for you. We are trying to protect your interest at all times. As supervisors, we are individually most cognizant of your constitutional rights.

Here, we are planning a program well within the authority of the State Laws —a program that we feel is in the best interests of the People of the County.

E. LEASE-PURCHASE CONSTITUTES TAXATION WITHOUT PUBLIC APPROVAL.

Again, in answer, we feel that you have had and will have the chance at the Polls to support us individually and our programs. Of course, you also have the right to reject us, individually, and our programs with your vote. Your vote has not been taken away. If any of us, as a Supervisor, are doing things that you do not approve of, the ultimate rejection or approval of our Office and of our Programs rests with you.

F. GENERAL OBLIGATION BOND FINANCING NECESSITATES AN INFORMED PUBLIC IN CONTRAST TO THE SECRET FINANCIAL MANIPULATIONS OF A SMALL GROUP AS PERMITTED BY LEASE-PURCHASE METHOD.

It is interesting to note that members of the Board of Directors of both the Farm Bureau and the Nevada County Taxpayers Association, sponsoring these petitions, have attended Meetings of the Nevada County Building Committee which, incidentally, is a private corporation to finance this building.

It is also interesting to note that public appearances have been made by the Citizens Committee at Rotary Clubs, Chamber of Commerces and other functions, explaining these proposals.

It is also interesting to note that the Board HAS NOT committed the County of Nevada to any course of action—other than the purchase of the property and the drawing of the plans.

WE WILL ASSURE YOU that we are acting in the interest of the taxpayers at all times, and will not commit the County to any program until we are thoroughly satisfied that it is the best program possible for this County and for the people residing therein.

MAY WE HAVE YOUR SUPPORT in the construction of our new Jails and Courthouse Annex?

ADVENT SERVICES SLATED BY CHURCH

SQUAW VALLEY — The advent season begins Sunday, December 2, and with it the United Church of Christ begins the preparation for the celebration of Christmas. The service at 7, 9 and 11 will observe the sacramento of Holy Communion and a special Advent communion meditation will be delivered by the Rev. Frank Evans. This is also "Loyalty Sunday" and all members, friends and their families are urged to attend one of the three services of worship.

On Thursday, December 6, the third Advent Festival will be held in the Converse room of the church.

The families gathered will create the Christmas decorations for the church Christmas tree, each family is asked to bring a plate of Christmas cookies. Coffee and punch will be served. The church tree will be decorated and carols will be sung.

MRS. SHEEHAN HOME FROM EASTERN TRIP

TAHOE CITY — Mrs. Pauline Sheehan returned to Tahoe City after completing a trip of over 7,000 miles, with her mother, Mrs. Edna Phillips of Inglewood. The itinerary covered eight states. Mrs. Sheehan met relatives for the first time and greeted others after a number of years.

The mother and daughter also stopped at Carlsbad Caverns, The Alamo, continued into the Gulf of Mexico area and part of Texas as well as other places of interest during the leisurely travel.

DRIVERS WARNED OF WINTER HAZARDS

With one of winter's most treacherous driving hazards—fog—now confronting motorists almost daily in many areas of California, Highway Patrol Commissioner Bradford M. Crittenden offered several tips on fog driving.

"Always use the low headlight beam. The high beam reflects off water droplets and can blind you. Never use parking lights; they not only are ineffective but are illegal to use as driving lights. Even if visibility appears adequate without headlights, turn them on. It will help the other driver see you.

"Increase your following distance. A sudden slowdown ahead then won't find you short of room to stop.

"Decrease your speed. You won't be overdriving your visibility range.

"Be alert for side traffic. A car entering from a side road is not readily apparent," the commissioner concluded.

ART WORKSHOP WILL BE HELD DECEMBER 1

NEVADA CITY—The Tenth Annual Christmas Fair will be held in Nevada City at the Artists Workshop on Commercial Street near York Street December 1 and 2.

Sponsored by the Nevada City Art Association, the fair will feature art work of nearly 70 northern California artists.

Last year, the fair grossed more than $5,000, 90 per cent of which went directly to participating artists, according to Helen Bonteou, out-going president of the association.

Invitations to attend the annual fair were mailed out lats weekend to patrons throughout California. The fair annually draws visitors to Nevada City for the two day event.

An artist jury has been screening entries for the fair for more than a month. Invitations have been extended to 80 artists.

Patrol Cooperates In Moral Emphasis

The California Highway Patrol will be among agencies cooperating in the "Moral Emphasis" safe driving program now under way throughout the state, Commissioner Bradford M. Crittenden said.

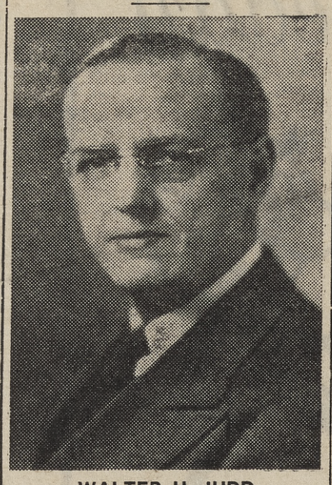
The campaign will point out that "safe driving involves more than mere physical dexterity in handling a vehicle; it also must include acceptance by every driver of his moral responsibility for the safety of others using the road," he said.

"Safe driving demands a knowledge of law, the vehicle and yourself, plus the wisdom to conscientiously apply that knowledge."

Spearheading the program is the California Association of Insurance Agents. Others participating are safety councils, religious groups, and the California Traffic Safety Foundation.

"The Moral Emphasis campaign will continue through the Christmas and New Year's holidays in an attempt to cut the tragic accident toll which so often makes a mockery of this traditional season of 'good will toward men,'," Crittenden said.

EXECUTIVE CLUB TO HEAR WALTER JUDD



WALTER H. JUDD

The next speaker at the Reno Executives Club is scheduled to be Dr. Walter H. Judd, former medical missionary in China, member of Congress from the 5th District of Minnesota and one of the most dramatic speakers to be found in Washington.

The affair, according to Dr. Garold D. Holstine, president, who is in charge of the committee on arrangements, will be held at the Elks Club on December 4.

Dr. Judd is one of the best speakers in the United States. Though his subject matter is definitely controversial, it is only in the broadest sense political and Dr. Judd does not descend to the level of party politics.

BROTHER, SISTER ARE COMPLETING COURSE

Robert and Bonnie Hartsten, formerly of Truckee, have just completed a ten-month specialized course in Bible instruction and organization management at the Watchtower Bible School of Gilead in New York City.

The Hartstens were part of a class of 103 selected ministers of Jehovah's Witnesses who were gathered from 52 lands around the world.

The course provided each day for a half day's classroom activity and a half day's practical training in some phase of operation of the Watch Tower Society's two large printing plants and the two buildings which house the offices of the Society and the school and provide living quarters for the students as well as for the 650 members of the headquarters staff.

Academic studies included a verse-by-verse study of the entire Bible, the history of religions, the relation of world history to the history of the Bible, Bible teaching techniques as well as advanced methods of congregational administration, business law, accounting and mathematics.
